RAMADAN FOOD PACKS – SHAD has made food packs which contain the essentials needed in a home for the fasting month of Ramadan. This meant that for many during the month of Ramadan their homes would contain the means for nutritious meals needed for their fast. In disadvantaged areas in Pakistan and Kashmir.

QURBANI IN UGANDA – SHAD helped facilitate the sacrificing an animal in the Muslim tradition of qurbani, the meat was then distributing to the neighbouring locals and villages which for many was the only time of year they would have meat in their meals.

WATER PUMPS – hand pumps, solar pumps and elephant pumps in various locations in Pakistan and Kashmir. Shad has helped to facilitate clean and safe drinking water in rural areas where contaminated water is commonly used. This aids in reducing the spreading of waterborne infections and diseases and providing a clean water source for many families. A hand pump requires no power source which is ideal in rural areas there is power cuts, as well as these solar pumps are powered by solar panels which is an efficient source of power in sunny areas such as Pakistan.

EID MEALS IN UGANDA – SHAD helped the locals in various districts of Uganda celebrate EID by making hot meals and gathering the locals to celebrate and eat together. As well as this distributing to the locals homes who were unable to attend the gathering.

IFTAR MEALS UGANDA / PAKISTAN – SHAD Has helped ease the opening of the fast-during Ramadan by providing hot nutritious meals to open their fast with. This meant that Ramadan it reduced the food insecurity in the fasting season.

SADAQAH LIVE GOATS UGANDA – SHAD has helped the underprivileged in various villages in Uganda with donating livestock animals such as goats which will aid in the agriculture of their home as well as aid in day to day living.

WIDOW SUPPORT – SHAD has supported the disadvantaged widows who have no means of income in their household, by donating sewing machines it means that these women are able to earn for themselves and support their families financially from their homes.

SEWING SCHOOL – SHAD has helped the underprivileged to learn how to sew which is a valued skill in their community, by doing so many were able to sew clothes and other textiles and sell them to support their families finically while still being able to care for their children at home.

PAKISTAN FLOOD RELIEF - SHAD has helped rebuild homes affected by floods in Pakistan as many homes were destroyed by the unfortunate disaster as well as distributing hot meals to those affected.
