

Friends of Turriff Cemetery

Our year has been affected deeply by the loss of our most dedicated volunteer , Annette

Annette's loss is immeasurable to the memorial garden and cemetery.

Our other dedicated volunteers continue to keep the memorial garden and Cemetery garden areas tidy and kept .

Planting and caring for the areas so that the they are colourful in season and full of nature, caring for the birds & insects .

Our goals are to keep the council carrying out their responsibilities to also keep the Cemetery to a high standard , and meeting have been held to ensure this happens .

In terms of spending our funds , it's difficult to get contractors to come due to Council rules and regulations, so we have reached out to Council listed contractors to carry out work in agreement with the council ; this will hopefully help us spend funds in larger projects that will be of a huge benefit to the Cemetery.

We will continue this year to carry out work and care for the areas , we have also this year helped quite a few people find lost relatives who are within the Cemetery.

Our volunteers numbers are around six and they do work , when and if they can , at anytime they please .

We continue to be a very small group who receive donations every now and again , and hopefully this year we can spend well on the projects planned to help the areas mentioned
