

ANNUAL REPORT 2025

CHAIR'S REPORT:

Activities:

Lyndy's received donations from individuals and made gifts consistent with its charitable purpose. Notable donations included £1410 raised through a West Highland Way sponsorship initiative.

The cycling project at Granton Primary started in May 2025, with funding provided to bring the existing fleet of bikes up to useable standard for pupils to use. A change of personnel at the school meant the planned training project stalled.

Funding was provided to Tollcross Primary school to facilitate educational trips.

The death of the Headmistress at Kumbya School was received with great sadness. This interrupted a long-standing relationship and communication with the school's activities. There is intention to re-establish links with the school with a view to providing further support for the feeding programme.

Finance:

During the year to 31st December, Lyndys' received £4155.35

Gifts totalling £1630 were made to Tollcross Primary School (£1000) and Gtanton Primary School (£630) consistent with the Charity's purposes.

There were no expenses incurred and the closing bank balance at 31st December 2024 was £8714.93.

STRATEGY AND OUTLOOK

Overall momentum has reduced for various reasons, principally the passage of time since Lynn's death. The trustees considered how best to reinvigorate fundraising and resolved to contact previous donors to test appetite for continued support.

Given the difficulties experienced in setting up the cycling project, the view of the trustees is to focus on supporting Tollcross and Kumbaya, consistent with the Charity's purposes.

PROCESS:

Pursuant to s19 of the Constitution, one third of the Trustees were selected at random to retire at the AGM (Donald Webb, Denis Watt, Kathleen Watt) and were re-appointed at a subsequent board meeting.
