MAVDAHA CAMEROON SCIO
Summary of how donor gifts were used in 2025

The charity benefitted from generous donations from a number of donors, which permitted us to continue our ministry in Cameroon in the following ways:

1. Every month we send around £1,260 to the project in Cameroon (depending on the exchange rate ~750cfa = 1GBP). This is used as follows:
   a) 555,000 cfa (~£740) salaries for four translators and nine other project workers
   b) 50,000 cfa (~£67) the daily management of the project
   c) 300,000 cfa (~£400) support for higher education students
   d) 30,000 cfa (~£40) discretionary health fund
2. Once a year we pay the subscription (£79.99) to Microsoft 365 online service for the village project workers' use, which also facilitates their online collaboration with us in the UK.
3. In 2025 we provided a new laptop computer for one of the project workers (dictionary) 555,000 cfa (~ £705).
4. At our discretion, we also occasionally give financial help to individuals we know outside of the project. In 2025 that aid totalled £780.
5. Our biggest highlight of 2025 was that, thanks to gifts totalling about £25,000 from two of our donors, we were able to realise a longstanding dream of the community in Cameroon: a local school, built and run entirely by the village community. The name of the school is COLBIWA, which stands for "**Collège Bilingue Willie et Annukka**". It is in the village of Mayo Plata, arrondissement of Tokombèrè, Department of Mayo Sava, Far North Province, Cameroon. *Here are some photos of the school and its first intake of pupils in September 2026.*
