

Cromar and District Volunteer Patient Transport Group

SCO41665

TRUSTEES REPORT 2025 – 2026

The group continued to provide transport for patients attending GP surgeries, Dentist, Vaccination Clinics and Aberdeen Royal Infirmary outpatient departments. Public transport remains largely unavailable for these purposes in this area. We have 13 drivers, but we have made no new recruits in the last year despite advertising. It is rare that we are unable to meet a request for transport.

There were 90 trips.

Donations from patients exceeded expenditure.

Government mileage rates from £00-45/ mile to £00-55/ mile.

We have £2540-00 in the bank account. This is mainly required to cover public liability insurance.

The main work of the group is undertaken by the Co-ordinator who continues to provide an outstanding service to the community.
