

Classic Music Live! Falkirk

Report of Activities from September 2025 to July 2026

The principal aim of the Trust is to organise concert performances for public attendance. They were ten concerts held in Falkirk Trinity Church with an average attendance of 60 people. The concerts were advertised to the public through our website, social media and the press. Concerts were held at lunchtime, afternoon or evening in order to attract as wide an audience as possible.

The Trustees met on six occasions to plan and organise these concerts and the ten concerts for season 2026/27. Efforts were made to attract grants and sponsors with some success. Artists were contracted and invoices paid promptly for all services. Communications were initiated with the composer Electra Perivolaris to commission a new work and artists were contracted to perform that work on 2nd October 2026.
