SC051728 - Friends of Ganavan [SCIO]

Dear Sir, Madam,

I refer to the above SCIO for which I have returned the annual return form on line. With regarding to the submission of accounts, we do not collect any money in relation to this charity so have no incomings or outgoings.

I have enclosed a short overview from the trustees on what the charity has been doing over the past year.

Yours sincerely,

Friends of Ganavan.

# Friends of Ganavan

SC051728 - Friends of Ganavan [SCIO]

Friends of Ganavan (FoG) continues to campaign to keep the green space surrounding the beaches at Ganavan for recreation for the town's community and visitors from further afield.

The charity works in close association with Oban Community Council.

Over the last year work has continued on input from FoG to a community led local place plan which will be submitted to Argyll and Bute Council in June 2025. Discussion and survey feedback has taken place over what the community would like to see there including proposals for a nature park with trails, a cycle pump track and skateboard park

This information is a Scottish Government contingency designed to let local communities have their say on what happens in the next Local Development Plan for the area – LDP3.

This is an important document and will help shape future decisions on the area of Ganavan that the charity is concerned with.
