Financial Review

Statement of the charity's policy on reserves

HAS's principal source of income is membership subscriptions, supplemented by modest donations and any surpluses from social events. The policy on reserves is to retain sufficient funds to meet any potential shortfall on the costs of meeting and events, and to provide for any equipment or donation requirements to support Society activities.

Details of surplus funds during this period

The available funds (cash, and bank balance) by the end (31/01/2026) of this financial period is **£3095.**

Details of any deficit

There is no deficit for the accounting period presented in this report.

Donated facilities and services

The Chairman continued to provide website hosting and maintenance services on a voluntary basis at no cost to the charity. These services contributed to the charity's online presence and communications.

Future plans

HAS's plans for the next year revolve around the activities shown within Table 1, as previously presented. Aside from that and more in particular, effort towards the following activities will be particularly amplified.

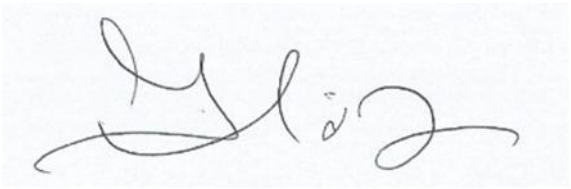

- Expand Website and e-shop
- Further promotion of Hellenic tartan with new products
- Quarterly meetings and talks
